2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Reference (1,541,976) teaches a lifting unit a lifting unit, the lifting unit comprising an inner hollow cylindrical guide and an outer hollow cylindrical guide and at least one piston 44 moveable relative to the inner and outer hollow cylindrical guides, the piston being of hollow cylindrical form and being located between the inner hollow cylindrical guide and the outer hollow cylindrical guide, wherein an outer part of the inner hollow cylindrical guide defines a first groove and an inner part of the piston defines a second groove, the grooves being co-aligned when the piston is in an initial condition relative to the inner hollow cylindrical guide, there being a releasable element contained within the grooves to retain the piston in the initial condition, see figure 5 and 6.

Allowable Subject Matter
